## DE PROFUNDIS - the *unofficial* newsletter of LASFS

### COLOPHON

*De Profundis* 508– June 2015. Publisher and Editor: **Marty Cantor**.

*De Profundis* is the unofficial newsletter of the Los Angeles Science Fantasy Society (6012 Tyrone Ave., Van Nuys, CA, USA). The LASFS' telephone number is: (818) 904-9544 . The club's web site is: www.lasfs.org. *De Profundis* is available only from Marty Cantor for his cost of producing the zines: 55¢ in person, \$1.00 by domestic mail. Out of country rates quoted upon request but it is recommended that copies be downloaded - or at least read - from the *DE PROF* web site.

Westercon is a service mark of the Los Angeles Science Fantasy Society, Incorporated (LASFS, Inc.), Worldcon and NASFIC are service marks of the World Science Fiction Society (WSFS).

I want any news of interest to LASFS members (no poetry or fiction). Send items to the LASFS address *c/o De Profundis* or leave them in the *De Profundis* mailbox at the clubhouse. The editor, Marty Cantor, can be reached at his address: martyhoohah (at) sbcglobal (dot) net or at the clubhouse on Thursday evenings. Deadlines are a bit fluid, but mid-month Thursdays are probably it.

If anybody who receives *DE PROF* via the mail happens to move without letting me know the new address; well, I have more important things to do than to be chasing down addresses so I will stop sending zines to you even if you have given me money to do so.

I will accept no advertising in *De Profundis* but I will always try to find room to announce upcoming events of interest to LASFS members.

Even though *De Profundis* is no longer the official newsletter of the LASFS, I intend to run the zine as if it still belonged to the club. Mostly. Due to space limitations, priority is always given to content mandated in the LASFS by-laws and by any applicable traditions. Also, after that stuff, by what the editor wants to do.

Written in Publisher 2000 on a new custom-modified Intel quad-core, DELL Workstation (using the Windows 7 Professional 64 bit operating system) and printed on an HP 4700dn colour laser printer.

Statements herein are those of the speaker/writer and do not necessarily reflect the opinions of the club. *Interjections in italics are solely the responsibility of the smartass, er, editor. Any resemblances 'twixt smartassery and responsibility are purely coincidental.*

**Addendum:** At the LASFS' Board of Directors meeting of February 8, 2009, the Directors accepted the proposal by Marty Cantor to take over *De Profundis* as his own fanzine, or as one of them, and he will be assuming the entire cost of production. Marty Cantor has promised to use his 5+ years experience of running *De Prof* as a guide to pubbing the zine as the *unofficial* newsletter of the society. The proposal was put to the Board because the Board had previously indicated that costs were dictating the discontinuance of the zine. *De Prof* is available on paper solely at cost: currently 75¢. Mailed copies, domestically, will be \$1.25. Subscriptions will be accepted; however, as prices are set at approximate cost of production, there will be no discounts for long-term subs.

Thanks go to Elayne Pelz, Charlie Jackson, Karl Lembke, Lee and Barry Gold, and any others who are helping me in providing news to LASFS members.*

**Meeting 4049, March 19, 2015**  
**President Matthew B. Tepper, presiding**  
**Karl Lembke, Scribe**

President Matthew Tepper gavelled meeting #4049 to order at 8:00.

Harlan Ellison is going to be here to have conversations with members, not to be a BNP and autograph books. The date is on March 26, two weeks from today.

The **Menace** from the last meeting were read. David Okamura bid \$0.5 to name them "I'm saving for the auction." They were so accepted.

**Treasurer's Report:** We do have some money in the treasury: You can't spend any of it.

We honored tonight's **Patron Saint, Patron Saint Dan Deckert:** Joe Zeff recalls back when he was a regularly attending member, he was a regular contributor to APA-L with Entropy N. He finished his run with issue number 500 of his zine. Tepper: Dan attended from 70s to 80s. He presided over the club for at least one term. He met and married the eldest of the Cook sisters, Dan-

ise. Both are amateur radio operators, and live somewhere in Missouri.

From the Hagiography: Fan artist, worked at Hughes Air Craft before moving to Iowa. He was also responsible for some nice fan art. Dan is known for the parliamentary maneuver of "All in favor say 'aye', all opposed say 'aye'..." He is said to be descended from both Andrew Jackson and Zachary Taylor. Dan worked programming at Buccaneer (Worldcon 1998, Baltimore, Maryland) and was one of the first members of the Board of Directors and served as chair for a time. He Chaired a LOSCON

**Patron Saint Dan Deckert** was given Three Cheers and all those in favor say "aye."

David Okamura had a **Moment of Science**. The largest moon in the Jupiter system is Ganymede. It has a large icy shell and a huge ocean, and seems to have more water than all of Earth. It's the only moon to have its own magnetic field. The water is evening out fluctuations in the field.

Here on earth, Neanderthals turned out to have more culture than we thought. (*They had Petri dishes?* - ed.) They've found white tail eagle claws that have been worked on, and date from before H. Sapiens arrived.

Remember the battleship Musashi? They found it using a self-propelled mini submersible that followed the terrain.

Jerry Pournelle had two comments: Ganymede has more salt water than earth does. It's quite possible there's life in those oceans. Also NASA successfully tests an engine that uses no fuel and violates the laws of physics.

**Registrar** Ed Hooper announced nothing in particular.

#### **Announcements, Regular or Time Bound**

Nick Smith announced Saturday, Pasadena Public Library has a free concert, Ukulele Orchestra of the Western Hemisphere, which has done a number of fannish pieces, including Also Sprach Zarathustra.

Matthew Tepper announced the Los Angeles Vintage Paperback Collector's Show, at Glendale Civic Auditorium. Admission \$5. There may be a few locals signing there.

**Miscellaneous:** SHIELD has been getting more and more interesting and strange. And there is a Hollywood Sci-Fi museum.

**Adjournment:** It was moved and seconded, and we adjourned to the auction at 8:42 pm.

#### **Meeting 4050, March 26, 2015 President Matthew B. Tepper, presiding Karl Lembke, Scribe**

President Matthew Tepper gaveled meeting #4050 to order at 7:55. He then read something from Isaac Asimov where he described Harlan Ellison, and a paragraph from

Boskone '72.

The **Menace** from the last meeting were read. John DeChancie bid \$6 to have Harlan name them "Bernie" They were so accepted.

President Tepper then gave Harlan Ellison a book to do with as he pleases. Marty Cantor also presented Harlan with a copy of the zine he had in APA-L #9 from over 50 years ago. Both items were handed to Susan to be placed in the Gold Vault.

Matthew Tepper announced that sadly, Peggy Rae Sapienza has passed away after complications from heart surgery. She was so good an organizer you never saw her actually organizing things; it just happened.

The treasurer was not here, due to dental work including anaesthesia

We honored tonight's **Patron Saint, Patron Saint Sue Haseltine**: Marty Cantor: She's been here once or twice; at the previous buildings, she was one of our better librarians. We'd like to see her here more often. Matthew: she and he worked at SDC for a while.

From the Hagiography: One of the LASFS librarians and is married to Mike Frank, brother of Sam Frank.

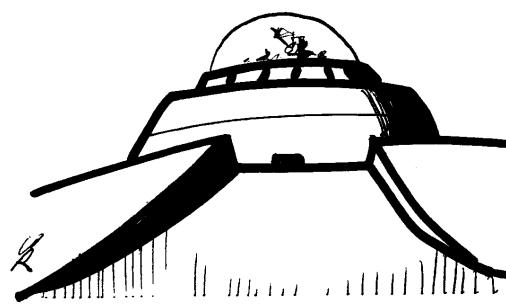

**Patron Saint Sue Haseltine** was given Three Cheers and Clearance.

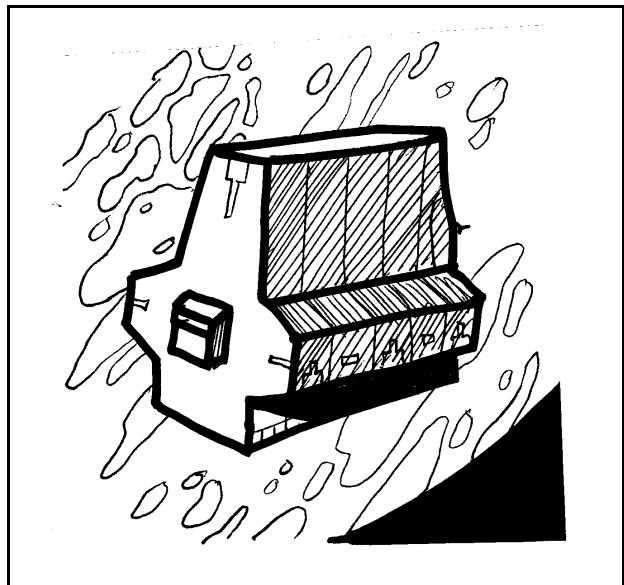

**Registrar** Ed Hooper introduced guests, including one who must be a pharmacist: Jack Cusway, Joel Eisenberg, Lori Eisenberg, Stephen Finkel, Jeff Kent, Eric Barnes, Suzanne Engebreth, Barry C. Battle, Melissa Eridondo, Ryan Price, and more people are still filling out cards.

**Adjournment:** It was moved and seconded, and we adjourned to talking amongst ourselves at 8:23. Most of us stayed to hear Harlan talk among himself.

#### **Meeting 4051, April 2, 2045 President Matthew B. Tepper, presiding Karl Lembke, Scribe**

President Matthew Tepper gaveled meeting #4051 to order at 8:00.

Marty Cantor announced a **Special Order of Business**: John DeChancie has lost his mother, and will be in Pennsylvania for a couple of weeks for the funeral and sequelae.

You may have heard of Henry Kuttner: Next Tuesday is the centenary of his birth. Next Tuesday is also Marty Cantor's 80th birthday.

The **Menace** from the last meeting were read. Milt Stevens bid \$2 to name them "The mad dogs have kneed us in the last dangerous visions while our backs were turned." They were so accepted. Mad dogs who kneed people are the luckiest mad dogs in the world?

**Treasury:** We have money. You can't spend any of it.

Larry Niven is currently GOHing at MiniCon.

We honored tonight's **Patron Saints**:

**Patron Saint Chuck Donahue:** Joe Zeff: Former marine, Hell player, Tepper: Used to be a mainstay of the club.

From the Hagiography: He served as the LASFS president, he organized a blood drive at one of the open houses, and he was a Marine.

**Patron Saint Chuck Donahue** was given Three Cheers and Up Chuck!

**Patron Saint Tom Stern:** CLJII: One of many members who likes Disney stuff. Tepper: He had a license plate that worked out to "Hello Nurse". He then met and married Marina, a nurse. Tom and Marina donated the plates and bowls from their restaurant to the club. A number of the dishes went to other interested parties, but many stayed in the cabinets for the use of the club.

**Patron Saint Tom Stern** was given Three Cheers and a Micky Mouse watch.

**Registrar** Ed Hooper announced a guest! Jack Foster, of Los Angeles, who found us on the Internet after researching Ray Bradbury on Wikipedia.

David Okamura notes an astronaut and cosmonaut have made a trip to the ISS, and will be spending a year in orbit. This is to see how astronauts fare under microgravity, in preparation for a trip to Mars.

Opportunity is showing its age. They've uploaded a software patch, but memory glitches continue, a robotic form of Alzheimer's. Curiosity has found Martian rocks with strata, indicating the possibility of two wet periods on Mars.

Russia will continue to cooperate with NASA on a replacement for the ISS in 2025, but it's hard to erect a Berlin Wall in orbit.

Hahvahd has been able to take mammoth DNA and insert it into elephant cells.

A 9-year-old has a new 3-D printed prosthetic arm. There's a small maker lab in Los Alamitos where they were able to create the arms at a cost of \$50 each.

President Tepper remarked he'd like to see the dodo brought back. If it comes back, will they have to call it a "did did"?

**Announcements, Regular or Time Bound:** Bill Green: Saturday morning, the moon will enter a total eclipse at 5 AM. (*And just who gave it permission to do this at a time when only I am awake?* - ed.)

**Reviews:** Milt Stevens read the 1989 Best Novel Hugo winner, Cyteen by CJ Cherryh.

Hare Hobbs notes the mass paperback was split into three parts. (*Hare had a lot of Gaul to make that remark.* - ed.)

Frank Waller went to a bookstore. A \$10 or less bookstore, 9054 Tampa in Northridge.

Elayn Pelz reviewed the piggy bank. It's empty. Feed the pig!

**Adjournment:** It was moved and seconded, and we adjourned to the program at 8:23.

### Meeting 4052, April 9, 2015 President Matthew B. Tepper, presiding Karl Lembke, Scribe in absentia

President Matthew Tepper gavelled meeting #4052 to order at 8:00.

Before the Menace, we have a few **Special Orders of Business**. Matthew Tepper announced that Andrew Porter the Music Critic also known for making a very fine

English translation of Wagner's Ring has passed away.

We also lost a giant of conceptual comedy, Stan Freeburg.

The **Menace** from the last meeting were read. Ed Hooper bid \$2.25 to name them "Is it Koenig or Kaynig" They were so accepted.

Marty Cantor announced the Board Meeting on Sunday, starting at 11.

As Publications minister, Marty announced the webmaster is quite ill. Lee Gold is good at getting stuff posted, but Barry has not been able to put up the design modifications. He has also not been able to update the Joomla. Anyone willing to assist, contact the Golds.

Joe Zeff moved to send an inappropriate card to the Golds. (Something with a big semicolon on the front.)

Barbara Harmon mentioned First Fandom. members are those who attended the first Worldcon in 1939. To be an associate, you have to have been involved for at least 30 years. (S\*\*T! I qualify.) (*And so do I. \*grump\** - ed.) Those who qualify, vote for Jim Harmon and Maury Dollins.

**Treasury:** We have money. You can't spend any of it.

We honored tonight's **Patron Saint: Patron Saint Elliot Weinstein:** CLJII: He learned to be a baby doc in Haiti. He operates with the very best butter knife, and with the best butter. He is a fan of long standing, and is one of the fans who created a religion, maybe the best reputed of fan-founded religions. (*Nah. The Stannous Church of LASFAPA is better.* - Little Tin God, er, ed.) Milt Stevens: He collaborated on Glycer and Weinstein's Hoaxarama and started the Hogus, which we may need in the near future. He created APA-H, an APA for people who didn't exist.

From the Hagiography: Elst is a pediatrician and invented a board game called For This You Die, invented the Hogu Banquet, an alternative to the Hugo Banquet held at McDonald's, and is said to be the LASFS member who most resembles Prof. Moriarty. Elst created Herban-gelism, a religion based on the comic book character Herbie.

**Patron Saint Elliot Weinstein** was given Three Cheers and a diet of radishes to keep that whimsy up!

**Registrar** Ed Hooper announced guests: Bill Sussel, a friend of Jeff Kent, and David Dean Bottrel, (who is our program tonight).

David Okamura observes Spring is here. Spring break road trip! Oddy-Q-5 has made its way across 3400 miles autonomously.

The Large Hadron Collider is starting up after 2 years of upgrades.

You know what the Turing Test is? Basically, when you can't tell whether you're dealing with a computer or a human. USC and DARPA have been working on a Sim Sensei, a virtual reality psychologist who is obviously artificial. People open up more to AIs than to people.

We've had reports about advances in battery technology. In the last 2 years or so, several exotic materials have been announced. Now Stanford says they've created a battery with a one-minute charge time, and made of graphite and aluminum. The only problem is it has half the energy storage of a lithium ion battery.

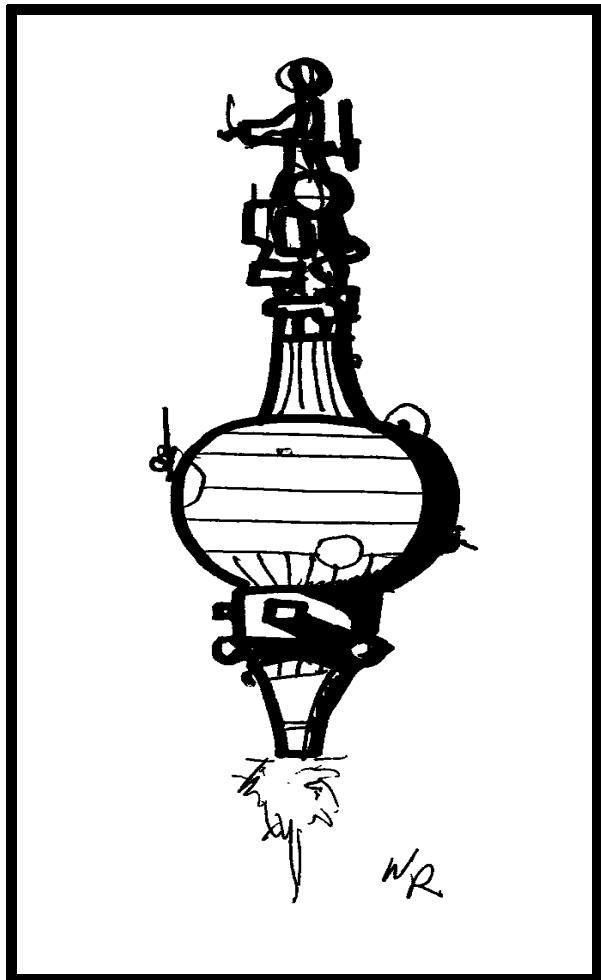

Waller adds they had an electric car race at the Long Beach raceway.

Doug Crepeau reports on experiments with a MHD drive pulling energy out of the quantum. (*Is that a euphemism for the part which went over the fence last?* - ed.)

**Reviews:** Eric Hoffman reviewed a book, American International Pictures, by Gary A Smith.

Larry Niven said Minicon put on its 50th anniversary over the weekend, and had three writer guests of honor, an artist guest, a publisher guest, and all guests were quite enjoyable. Minicon treats their guests right. He had a wonderful time.

**Adjournment:** It was moved and seconded, and we adjourned to the program at 8:47.

**Meeting 4053, April 16, 2015**  
**President Matthew B. Tepper, presiding**  
**Karl Lembke, Scribe**

President Matthew Tepper gavelled meeting #4053 to order at 8:00.

David Willis, the annoying guy, stood before the club to talk about Marty Cantor's 80th birthday, last week. We lost Leonard Nimoy, but we didn't lose Marty Cantor! The amazing thing is he didn't annoy people enough for anyone to kill him.

The **Menace** from the last meeting were read. Nick Smith bid \$4 to name them "Try doing THAT on Television!" They were so accepted.

There is a civil war museum exhibit Nick Smith is curating, featuring a person whom Jules Verne used as the basis for a couple of his stories, Thaddeus Lowe. This is at the Pasadena History Museum.

Christian mentioned the table full of books, going away tonight.

**Treasury:** We have money. You can't spend any of it.

We honored tonight's **Patron Saints**, starting with **Patron Saint Stan Burns**. Stan is currently down from the after-effects of an auto accident.

From the Hagiography: Stan works as a photographer and lives in Riverside. He entered LASFS while going to USC and questioned fans for data on a college paper on "newly developing interpersonal relationships in fandom." He also invented some of the LASFS poker games and is credited with many of the first set of pictures for the fan gallery.

**Patron Saint Stan Burns** was given Three Cheers and an f-stop.

Then we have **Patron Saints Len and June Moffatt**. Marc Schirmeister: June and Len gave him one of his fond memories, doing a swing dance to music from a spring-wound phonograph he brought to a party. George McUrso: He met them at Blustering Gales, and made sure they got nominated for the Evans Freehafer Award. Len had an extraordinary career as a writer, and had pieces appear in Sherlock Holmes magazine. Along with Bruce Pelz, the Moffatts were founders of BoucherCon.

In honor of Len & June's sainthood, there is a cake in the back room.

CLJII: He has known Len Moffatt forever. He's from the area of Pittsburgh, PA, and came to California on his way to exchange greetings with the Japanese. June is very much Len's equal in fandom. Barbara Harmon met Len in 1957 or 58, and she and June used to double date with Jim and Len. The Moffatts are the best people in the world.

From the Hagiography: The Moffatts are Evans-Freehafer Award winners and they co-won TAFF (the Trans Atlantic Fan Fund). They are both fan writers and they are co-founders of Boucher-Con [No. It was founded by Bruce Pelz. See <http://ourworld.compuserve.com/homepages/mglyer/bruce/index.html>]

They are long time Tarzan and Sherlock Holmes and Oz fans. At one time, they would bring young, impressionable fen into their home and civilize them. (*Ed Green was one so the success-rate is an open question.* - ed.) June is a former LASFS President, as well as a former Board member.

**Patron Saints Len and June Moffatt** were given Three Cheers and a deerstalker and an Inverness cape.

**Registrar** Marcia Minsky announced a guest: Kevin Siegel, the other gentleman in a green shirt.

Nick Smith had a **Board** announcement. He's making announcements of SF-themed events for people to attend. 4/25, the people who do the Wicked Lit presentations are doing a staged reading of a Star Trek episode inside a mausoleum, Mountain View in Altadena.

David Okamura observes **Science** happened. SpaceX

managed to launch their Dragon capsule to the ISS. The first stage landed on the barge, and nailed the landing. But the nails were too big.

A Hollywood Celebrity was seen crawling around in Los Feliz looking for a new home. This was P22, a mountain lion.

Apparently, Mercury should be painted black. Why is it so dark? It may be the remnants of comet dust going around the Sun, coating the surface.

There's been a come-back. Brontosaurus is back!

Jerry Pournelle had a minor topic to speak about, and an ulterior motive. Don't try this at home, all of you makers. But if you do, let me know how it comes out. A fellow build himself a gadget to electronically stimulate his head, and claimed it made him more creative. A Ph.D at Stanford decided to try to repeat the experiment. He went to Radio Shack and bought some components. He built himself a contraption. He got a big flash of light and proceeded to win five consecutive games of Cannonball on his iPhone. He went to the race track and the results are reported in the December 2014 Wired.

In other news, every thirty million years, the Earth goes through the plane of the galaxy. (*Does it first have to pass a TAA inspection?* - ed.) A chap has a theory that because dark matter would concentrate in the plane of the galaxy, maybe that's what causes comets to break loose from the Oort cloud.

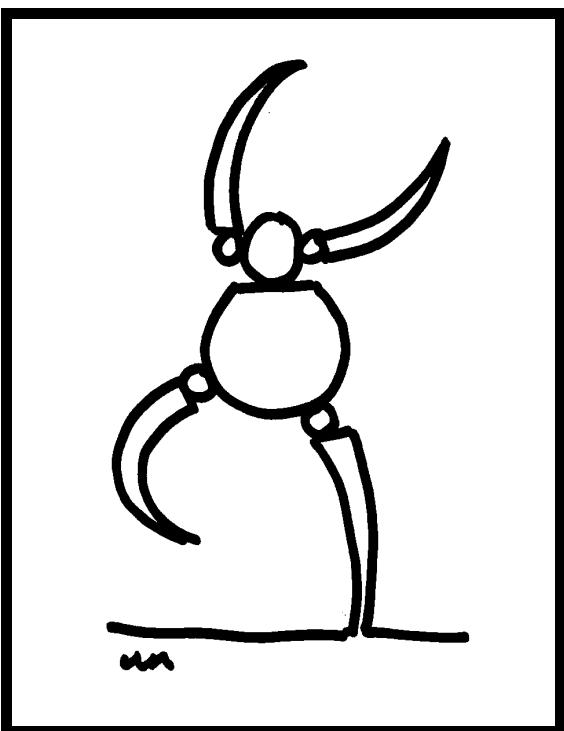

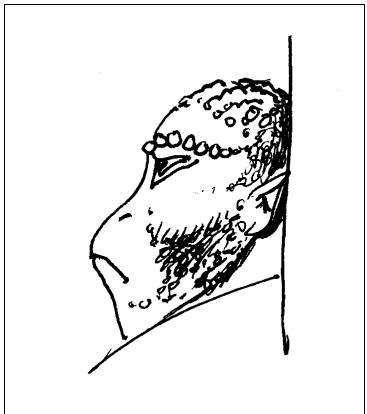

**Reviews:** Frank Waller heard on Radio 1070, and Shaun Crosby was on the line talking about the Star Wars convention.

**Adjournment:** It was moved and seconded, and we adjourned to the program at 8:47.

**Board of Directors Meeting**  
**April 12, 2015**

**Chairman of the Board, Karl Lembke**  
**Board Secretary, Marty Cantor**

(As the Board of Directors did not meet in May, the April have not been officially corrected and accepted and that will not happen until the June meeting.)

## Friday night board gaming

Friday Night Board Gaming is a Meetup which meets at LASFS most every Friday evening, usually starting around 4:30 and ending around 11:00.

All LASFS members are invited to play these modern, mostly European, board games. There is no charge for gaming but members are responsible for any LASFS' dues which must be paid.

Members of the Meetup game at LASFS the same way other guests visit the club: 3 free meetings and then joining the club if they continue to like coming here. After they join the club they pay dues like any other member.

(Our experienced gamers are willing to teach these games to beginners.)
